CLEMSON COLLEGE

Rev. C. Wardlaw spoke briefly on behalf of the White Rock Library Assobalf of the United State and we as sure all, the most humble, that at Clemson they will be treated with the utmost courtesy at the college of the people, and that it will repay them to make a visit to that institution.

The popularity of the college is shown by the fact that there are applications now on file for admittance to the college in double the number that can be accommodated. Clemson, under the management of Dr. Hartzog, is doing a great work for the State and surely its

Is it Right for an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Breyard, N. C. It may be a question whether the edior of a newspaper has the right to pub-ely recommend any of the various proprietary medicines which flood the mar prietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colie, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for half a mile of this spot and near the twenty years and have always found it reliable. In many cases a dose of this ing the past twenty years. He was succeeded by Rev. H. M. Barton who, however, broke more of the bread of life to this people than he found for their children the grain of earthly knowledge. He preferred preaching to teaching, and if Kit Spears excelled as an instructor of the young, Martin Barton shone brightest as a herald of the Cross. I cannot let this occasion pass to emphasize his wonderful gift of oratory. He knew nothing of the arts of the trained elocutionist, and lacked the graces of the polished speaker, perhaps, graces of the polished speaker, perhaps, but he often swept his auditory with flashes of the purest eloquence. Speech of J. Altheus Johnson.

Below will be found a brief synopsis of the speech delivered by Mr. J. Althous Johnson, of Washington, D. C., at the Semi-Centennial of White Rock Academy, held at South Union, July 19th. The subject assigned Mr. Johnson by the programme committee was, "Why the Mother Should be Educated?" leading thought was set forth tersely as In the divine economy for the mould-

ing of individuals and the elevation and betterment of the race, the mother is the great instrument to be used. It the great instrument to be used. It was ordained that the woman, who was the chief instrument in man's fall, should be also the chief instrument in bruising the head of the serpent of evil; and when the Saviour of man came to earth to teach the better way he can'c of a human mother, but without a human father, and thus put the seal and honor of divinity unen motherhead. In honor of divinity upon motherhood. In motherhood woman is admitted to part-nership with God in the creating of immortal beings and the shaping and moulding of them in body, mind and soul. In woman, through the tender and intimate relationship of mother-hood, life is touched at the very foun-tain head. Character and the future man or woman is shaped in the very early and impressionable years of childhood when a mother's influence is para-mount. Elevate motherhood and you elevate childhood and in childhood you and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience durfor the elevation of the race and according as the mothers are fitted, in body and mind, for the high and holy function of the bearing and the training of a will the offence to the control of the bearing and the training of a state of the control of the bearing and the training of a state of the control of the bearing and the training of a state of the control of the bearing and the training of a state of the control of th child, will the offspring be improved. God has made motherhood the crowning and culminating glory of the sex and constituted it the matrix in which constanted it the matrix in which character is shaped and the human race moulded. Whether the "bruising of the heel," which it was given to Satan, the evil one to do, or the "bruising of the head," which it was allowed the tion of the women and of motherhood and the consequent impress upon child-hood, and the great means to be used in oringing about the final triumph and redemption of the race will be a motherhood, educated, purified and strength-ened in the light of an intelligent per-ception and observance of the laws of at Washington, but preserves his legal
